Driving Directions:**Other Notes:****Details:**

MFA will call you to arrange an appointment for your visit. This will be for a four-hour visit with a forester. The time can be spent at your kitchen table discussing your plans and questions, or out touring the land or a combination of both. To make the most of your time with the forester, you should have:

- A copy of your management plan if you have one.
- Aerial photos of your land if you have any.
- Any future plans you have for your land and any questions you'd like to ask the forester.

Your Cost

If you want a new or updated Management Plan, there would be an extra charge. Ask the forester during your visit. They can either do it for you or refer you to someone else.

After the Visit

For follow-up questions after the visit, MFA members can call the Forester Phone Line which is a free service. Others should call the forester who did the visit and expect to pay for the forester's time at the rate of \$50 per hour.

What questions or comments do you have? Write them here or call MFA at the number above.

This program is coordinated by the Minnesota Forestry Association under a grant from the MN DNR Division of Forestry to implement the Call Before You Cut program.
